

West Sussex has recently been given a Government grant for additional Highway Infrastructure works, which they have to spend this side of 1<sup>st</sup> April. There is one piece of work they are intending to do for Ashurst and this is as follows:-

On the B2135 Steyning Road, Ashurst we are planning structural patching of a total of 98SqM over four patches. (7m x 2m) + (12m x 1m) + (45m x 1.5m) + (5m x 1m). this is over a stretch of the Northbound lane, 150m South of jnc with School Lane.

Best wishes.

David
